STEP 3. Submit your Recommendations to ND

- Request your recommendations in your admissions portal.

STEP 4. Request your Report Cards, Transcripts, and Standardized Test Scores

- Please send transcripts/report cards from the past two years, and the current year grades as soon as they are available. We will review applications with the first quarter or first trimester grades of the current year.
- Please request any Connecticut Mastery Tests, PSAT or any other standardized testing to be sent to ND.
- Records can be requested through your online admissions portal or by submitting a records release form to your current high school records office to authorize the release of your transcripts and standardized test scores.

STEP 5. Schedule your Family Admissions Interview

- The final step to complete the transfer admission process is a family admission interview. The interview is an opportunity for us to answer questions you might have, review your application, discuss course placement, and finalize your admission decision, standardized test results along with the other components of your application will provide a full picture of your academic abilities and potential. Please remember that your standardized test scores are only one part of your total application.
